From the President

Elden I. Lopez, MD/MPH is the Founder and President of GHH and is currently Working on a residency program in Preventive Medicine at Loma Linda University in California.

GodsHelpingHands.org

It is with great excitement that I write to tell you about what is happening in our Mission in Guatemala. Very soon you will receive an invitation to come to join us for the great inauguration in our Medical and Dental Clinic. We are in the last stage in our construction and we will need to install the windows and the interior doors.

We are getting ready for the Florida and Texas groups that are coming soon. God has been good and we are so grateful for each and every gift and wanted to express our sincere thanks to all who contributed towards this growing ministry. As we continue to work together on this project my prayer is that God will always lead.

Upcoming Mission Trips

1. May 10-19 Hughely Hospital Team group of 22 will be staying in the new dormitories of GHH.
2. May 14-17 Florida Hospital Site Visit done by Jeremy Robison and Mick Thompson Administrators.

Special thank you to Berkshire Mission for their hard work they did in their Mission trip, Machaquila, Poptun, Petén.

Berkshire Mission, is sponsored and run by the Berkshire Hills Seventh day Adventist Church. It consists of a group of people diversified in many ways, and yet unified by the desire to relieve the suffering of our fellow man. GHH had the privilege to have this group of more than 55 volunteers, led by Bob and Erick Young. They work hard to putting the tile to the entire Clinic, also help did multiples assignments finishing the plumbing and electricity of the bathrooms and start the foundation of the dormitories. Also they paint the shop and held VBS and evangelistic meetings at night , being the first group that had baptizing in our Machaquila River, praise the Lord for their hard work.

More than 300 patients a day. Dr. Timothy Bainum Family Practice and Dr. Pierce an Internist from Connecticut, had to work under the rain. Also glasses were given with the help of and optometrist.

Evangelist campaign was given by the students in the last week they were there. Was very impressive, many people turn their heart to God. Was an very unique experience for everyone.

The group also when to local poorest village in Poptun, seeing more than 500 patient that day.

The Mayor was very happy with all the work they did. Glasses were given, toys and clothes. Together with some bibles and Step to Christ given.

Dr. Turner and his assistance place another dental chair in the Dental Van and were able to see two patients at the time. They clean the dental unit and saw approximately 500 patients during their visit. Also they went to the villages and did lots of fillings. I was very happy to see our local dentist also helping seeing patients.

A site visit from Hugley Hospital preparing for the trip in May

General Updates:

- We have finished the fence for the Corrals.
- The irrigation system installation for the fruit trees has been finished.
- Our Pavillon is finished and we are advertising to rent the facility for retreats for pastors, churches and camporees.
- Security house is almost done.
- Planning to finished the dormitories and Showers this week. We will need sidewalks and painting.
- Dr. Omar Lopez is volunteering his time organizing the medical equipment in Pasco, WA. As soon we have funding for it we will send the containers.
- The Henhouse will be ready to for the roof very soon.

The new Medical Dental Clinic in Machaquila, ready to be finished need of windows and doors.

Needs:

- Bus 20-30 passengers to transport volunteers
- Farmer to be in charge of agriculture
- Mechanic to fix our 175-Massey Ferguson tractor .
- Semi-Truck, to transport equipment to Guatemala.
- Wiring the shop and build a restroom.
- 1000 valves for the dripping system for our fruit trees
- Community Road along the fence so people do not travel in the middle of our property..
- Any one are interested in sponsoring a Church will be next project.
- Medical and surgical equipment to start with big opening on July or August.
- Needs tools for carpentry. We have a good carpenter in campus with a lot of talent he wanted to built own cabinets for the Clinic and housing.
- Need audio-visual equipment for our Clinic/Church
